

Madhavi Nadindla

 MadhuN-400266 |  n-madhavi |  mnadindl@gitam.in |  +91 90149 65938

SKILLS

Technical Skills: Programming Languages: C, Java Knowledge on DSA, CLOUD Computing, API'S
Additional Skills and Interest: Problem-Solving and Critical Thinking skills Web development Technologies: HTML, CSS, JavaScript, Nodejs, Reactjs. Database Management Systems : MySQL , MongoDB

Software Concepts : Learned about Software testing methodologies and object oriented Software engineering

INTERNSHIPS AND PROJECTS

Google Cloud Cybersecurity Internship - Eduskills

April – June 2025

- **Configured firewalls** and managed IAM roles to strengthen cloud security environments.
- **Detected and analyzed** real-time security threats using Google Cloud's security tools.
- **Completed** all hands-on labs and earned official internship verification, validating practical expertise in cloud security engineering.

Phishing URL Detector – CS Project

- **Built and deployed** a phishing URL detection system on AWS/GCP, securing access with IAM roles and firewall policies.
- **Trained** detection logic using Python (regex/ML) to classify URLs with ~90% accuracy.
- **Delivered** a scalable cloud-based solution capable of analyzing 1,000+ URLs in real time, demonstrating cloud security and AI integration.

EDUCATION

2022 - 2026	Bachelor of technology (Computer Science Engineering(Cyber Security as specialization) at Gitam University	(GPA: 8.2/10.0)
2022	Class 12th Board of Intermediate Education Andhra Pradesh	(61)
2021	Class 10th Central Board of Secondary Education	(88)

CERTIFICATIONS

- Cisco Networking Academy (Ideathon) – Completed certifications in:
 - Introduction to Networks and Cybersecurity
 - Switching, Routing, and Wireless Essentials
- NPTEL Software Testing – Earned certification after successfully completing coursework and proctored examination.

CTF'S AND VOLUNTEERING

- Assisted in organizing a university-level hackathon and supported participants with logistics.
- Collaborated with diverse student teams, improving communication and teamwork.
- Participated in University Cybersecurity CTF, solving cryptography and network challenges.
- Practiced hands-on labs on TryHackMe, strengthening skills in web exploitation and privilege escalation.
